

## STUDENT HEALTH SERVICES AND REQUIREMENTS

The Charles City County School Board may employ school nurses, physicians, physical therapists, occupational therapists and speech therapists who meet such standards as may be determined by the Board of Education. Subject to the approval of the local appropriating body, a local health department may provide personnel for health services for the school division.

With the exception of school administrative personnel and employees who have the specific duty to deliver health-related services, no licensed instructional employee, instructional aide, or clerical employee shall be disciplined, placed on probation, or dismissed on the basis of such employee's refusal to (i) perform nonemergency health-related services for students or (ii) obtain training in the administration of insulin and glucagon. However, instructional aides and clerical employees may not refuse to dispense oral medications.

For the purposes of this policy, "health-related services" means those activities which, when performed in a health care facility, must be delivered by or under the supervision of a licensed or certified professional.
