The alleged discrimination should be reported as soon as possible, and the report generally should be made within fifteen (15) school days of the occurrence. The investigation may be conducted by school personnel or a third party designated by the school division. The investigation shall be completed as soon as practicable, which should generally be not later than 14 school days after receipt of the report by the Compliance Officer. Also upon receiving the complaint, the Compliance Officer shall determine whether interim measures should be taken pending the outcome of the investigation. If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the complainant and the person or persons allegedly responsible for the discrimination will be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

The investigation may consist of personal interviews with the complainant, the person or persons allegedly responsible for the discrimination, and any others who may have knowledge of the alleged discrimination or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the complainant and the person or persons responsible for the alleged discrimination. The investigation may also include the inspection of any documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the complainant and others pending the completion of the investigation.

Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed by a complete and thorough investigation.

The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged discrimination conducted under this policy or by an appropriate state or federal agency.

ADDITIONAL ADMISSION REQUIREMENTS

- A. Except as otherwise provided below, no pupil shall be admitted for the first time to any public school in any school division in Virginia unless the person enrolling the pupil presents upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child.
- B. If a certified copy of the birth record is not provided, the administration shall immediately notify the local law enforcement agency. The notice to the local law enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.
- C. Within 14 days after enrolling a transfer student, the administration shall request documentation that a certified copy of the pupil's birth record was presented when the pupil was enrolled in former school.

- D. The School assigns a unique student Identification number, determined in accordance with a system developed by the Department of Education, to each student enrolled in the division. No student identification number includes or is derived from the student's social security number. Each student retains the student's identification number for as long as the student is enrolled in a public elementary or secondary school in Virginia.
- E. Tuition rates are established each year in accordance with the provisions of Va. Code § F.
- F. Prior to admission to the Charles City County Public Schools, the parent, guardian or other person having control or charge of the child shall provide, upon registration,
- a sworn statement or affirmation indicating whether the student has been expelled from school attendance at a private school or in a public school division of the commonwealth or another state for an offense in violation of school board policies relating to weapons, alcohol or drugs, or for the willful infliction of injury to another person. This document shall be maintained as a part of the student's scholastic record; and
 - a sworn statement or affirmation indicating whether the student has been found guilty of or adjudicated delinquent for any offense listed in subsection G of Va Code §1M-260 or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories. This document shall be maintained by the superintendent and by any others to whom he disseminates it separately from all other records concerning the student.

However, if the school administrators or the School Board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication of delinquency or conviction for an offense listed in subsection G of § 16.1-260, the notice shall become a part of the student's disciplinary record.

When the child is registered as a result of a foster care placement, the information required under this subsection must be furnished by the local social services agency or licensed child-placing agency that made the placement.

- G. A student, who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in Virginia or in another state or for whom admission has been withdrawn by a private school in Virginia or another state may be excluded from attendance in the Charles City County Public Schools regardless of whether such student has been admitted to another school division or private school in Virginia or in another state subsequent to such expulsion, suspension, or withdrawal of admission upon a finding that the student presents a danger to the other students or staff of the school division after (i) written notice of the student his/her parent that the student may be subject to exclusion, including the reasons therefore, and notice of the opportunity for the student or his parent to participate in a hearing to be conducted by the superintendent or his designee regarding such exclusion; and (ii) a hearing of the case has been conducted by the superintendent or his/her designee; and the decision has been to exclude the student from attendance. The student or his parent may file a written petition for review with the School Board within 15 days of notice of the decision of the superintendent of his/her designee. If the school board grants a review of the record, the decision of the superintendent of his/her designee may be altered.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the School Board, committee thereof, or superintendent or his designee, as the case may be at the relevant hearing, the student may petition the School Board for readmission. If the petition for readmission is rejected, the School Board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may petition the School Board for readmission

For the purposes of this section, the superintendent's designee shall be a (i) trained hearing officer or (ii) professional employee within the administrative offices of the school division who reports directly to the superintendent and who is not a school-based instructional or administrative employee.

In excluding any such expelled student from school attendance, the School Board may accept or reject any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The excluding School Board shall not impose additional conditions for readmission to school.

- H. This policy does not preclude contractual arrangements between the Charles City County Public School Board and agencies of the federal government or the school board of another jurisdiction to permit students not otherwise eligible to attend Charles City County Public Schools.
- I. Prior to admission, the student must document compliance with, or eligibility for exemption physical examination and immunization requirements contained in Va. Code §§22.1-270, 22.1-271.2 and 32.1-46 and policies JHCA Physical Examinations of Students.

If the person enrolling a child who has been placed in foster care by a local social services agency is unable to produce a report of a comprehensive physical examination and/or proof of immunization, the student shall be immediately enrolled; however, the person enrolling the child shall provide a written statement that, to the best of his knowledge, the student is in good health and is free from communicable or contagious disease. In addition, the placing social service agency shall obtain and produce the required documents or otherwise ensure compliance with the statutory requirements for the foster child within 30 days after the child's enrollment.

SCHOOL ADMISSION AND DETERMINATION OF TUITION

Admission of Nonresident Students

Students who reside outside of the boundaries of Charles City County (nonresidents) may be enrolled in the Charles City County Public Schools on a space/program available basis as tuition paying students. Admission by tuition is for one year only and application must be made each year (annually) thereafter. Upon admission, a tuition student becomes a student of the Charles City County Public Schools and is therefore under control of the School Board. The parent/guardian must assume responsibility for transportation of the admitted nonresident student to and from the school site. The student and parents/guardians must sign an agreement acknowledging that the student will comply with the rules and regulations that are applicable to students in the Charles City County Public Schools and that permission to attend the Charles City County Public Schools may be withdrawn in the event that the student fails to comply with such rules and regulations or if it is determined that such action is in the best interests of the school system.

Tuition

Tuition contracts must be executed by the student's parents or legal guardian. Tuition payments must be paid in two equal installments: the first payment is due by September 1 of the school year and the second payment is due by January 15th of the same school year. Tuition for a student entering the Charles City County Public Schools after the semester has started will be calculated based upon the number of school days remaining in the school year. The School Board will periodically review and adopt the annual tuition rates for elementary and secondary students. Failure to pay the tuition when due will be grounds for withdrawing permission for the student to attend Charles City County Public Schools. There shall be no refund of tuition for any student who does not remain enrolled for the full period for which tuition was paid, regardless of the reason of the withdrawal of the student. Tuition will be reimbursed on a pro-rata basis for students for whom permission to attend the Charles City County Public Schools has been withdrawn by the school system. Charles City Public Schools

Changes in Residency for Charles City County Public Schools Students

Students whose residence changes to a location outside of the Division after the start of the school year may complete that year in the Charles City County Public Schools on a tuition basis under the requirements applicable to non-resident students set forth above. The parent must assume responsibility for transportation. Charles City High School students who are in the second semester of their junior year or who have completed their junior year whose residences change to a location outside of Charles City County and who have successfully completed two or more consecutive years in the high school immediately prior to the time of residence change may attend the 12 grade in Charles City High School on a tuition basis under the requirements applicable to non-resident students set forth above. The student/parent/guardian must assume responsibility for transportation.

Nonresident Employees' Children

Nonresident, full-time employees may request permission for their children to attend the Charles City County Public Schools on a tuition-free basis. The Superintendent, or designee, will make a determination on initial enrollment or continued enrollment, considering, but not limited to, the following factors:

- Space/program availability,
- The need for hiring additional staff,
- The cost of any needed additional services,
- The disciplinary record of the student.

If approved, the employee will be responsible for transportation of his/her children to and from school. Admission will be reviewed on a yearly basis or more frequently should conditions warrant an earlier review. The employee and child will be required to sign an agreement acknowledging that the student will comply with all of the rules and regulations applicable to students in the Charles City County Public Schools and that permission to attend the Charles City County Public Schools may be withdrawn in the event that the student fails to comply with such rules and regulations or if it is determined that such action is in the best interests of the school system. In such instances, Virginia High School League regulations govern the student's participation in interscholastic competition.

JECA Admission of Homeless Children

ADMISSION OF HOMELESS CHILDREN

The Charles City County School Board is committed to educating homeless children and youth. Homeless children and youth shall not be stigmatized or segregated on the basis of their status as homeless. The school division will coordinate the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students and with other school divisions as may be necessary to resolve interdivisional issues.

The Charles City County School Division will serve each homeless student according to the student's best interest and will

- continue the student's education in the school of origin for the duration of homelessness
- if the student becomes homeless between academic years or during an academic year; or
- for the remainder of the academic year, if the student becomes permanently housed during an academic year; or
- enroll the student in any public school that non homeless students who live in the attendance area in which the student is actually living are eligible to attend.

In determining the best interest of a homeless student, the Charles City County School Board shall

- to the extent feasible, keep the student in the school of origin, except when doing so is contrary to the wishes of the student's parent or guardian;
- provide a written explanation, including a statement regarding the right to appeal as described below, to the homeless student's parent or guardian, if the division sends the student to a school other than the school of origin or a school requested by the parent or guardian; and
- in the case of an unaccompanied youth, ensure that the division's homeless liaison assists in placement or enrollment decisions regarding the student, considers the views of such unaccompanied youth, and provides notice to such youth of the right to appeal described below.

Enrollment

The school selected in accordance with this policy shall immediately enroll the homeless student, even if the student is unable to produce records normally required for enrollment, such as previous academic records, birth records, medical records, proof of residency, or other documentation.

The enrolling school shall immediately contact the school last attended by the student to obtain relevant academic and other records.

If the student needs to obtain immunizations, or immunization, birth, or medical records, the enrolling school shall immediately refer the parent or guardian of the student to the division's homeless liaison, who shall assist in obtaining necessary immunizations, or immunization, birth, or medical records.

If the documentation regarding the comprehensive physical examination required by Policy JHCA Physical Examinations of Students cannot be furnished for a homeless child or youth, and the person seeking to enroll the pupil furnishes to the school division an affidavit stating that the documentation cannot be provided because of the homelessness of the child or youth and also indicating that, to the best of his or her knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division shall immediately refer the student to the division's homeless liaison who shall, as soon as practicable, assist in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and shall immediately admit the pupil to school.

The decision regarding placement shall be made regardless of whether the student lives with the homeless parents or has been temporarily placed elsewhere.

Enrollment Disputes

If a dispute arises over school selection or enrollment in a school

- the homeless student shall be immediately admitted to the school in which enrollment is sought and provided all services for which he or she is eligible, pending resolution of the dispute;
- the parent or guardian of the student shall be provided with a written explanation of the school's decision regarding school selection or enrollment, including the rights of the parent, guardian, or student to appeal the decision;
- the student, parent, or guardian shall be referred to the division's homeless liaison who shall carry out the appeal process as expeditiously as possible after receiving notice of the dispute; and
- in the case of an unaccompanied youth, the homeless liaison shall ensure that the youth is immediately enrolled in school pending resolution of the dispute.

Appeal Process

Oral Complaint

In the event that an unaccompanied student or the parent or guardian of a student (hereinafter referred to as the Complainant) disagrees with a school's decision regarding the student's eligibility to attend the school, the Complainant shall orally present his position to the division's homeless liaison.

Written Complaint

If the disagreement is not resolved within five (5) school days, the Complainant may present a written complaint to the homeless liaison. The written complaint must include the following information: the date the complaint is given to the homeless liaison; a summary of the events surrounding the dispute; the name(s) of the school division personnel involved in the enrollment decision; and the result of the presentation of the oral complaint to the homeless liaison.

Within five (5) school days after receiving the written complaint, the homeless liaison will reach a decision regarding the contested enrollment and shall provide a written statement of that decision, including the reasons therefore, to the Complainant.

The liaison will inform the Superintendent of the formal complaint and its resolution.

Appeal to Superintendent

If the Complainant is not satisfied with the written decision of the homeless liaison, the Complainant may appeal that decision to the Superintendent by filing a written appeal. The homeless liaison shall ensure that the Superintendent receives copies of the written complaint and the response thereto. The Superintendent or designee shall schedule a conference with the Complainant to discuss the complaint. Within five (5) school days of receiving the written appeal, the Superintendent, or designee, shall provide a written decision to the Complainant including a statement of the reasons therefore.

Comparable Services

Each homeless student shall be provided services comparable to services offered to other students in the school attended by the homeless student including the following:

- transportation services;
- educational services for which the student meets the eligibility criteria, such as services provided under Title 1, educational programs for children with disabilities, and educational programs for students with limited English proficiency;
- programs in vocational and technical education;
- programs for gifted and talented students; and
- school nutrition programs.
-

Transportation

At the request of the parent or guardian (or in the case of an unaccompanied youth, the liaison), transportation will be provided for a homeless student to and from the school of origin as follows:

- if the homeless child or youth continues to live in the area served by the division in which the school of origin is located, the child's or youth's transportation to and from the school of origin shall be provided or arranged by the division in which the school of origin is located.
- if the homeless child's or youth's living arrangements in the area served by the division in which the school of origin is located terminate and the child or youth, though continuing his or her education in the school of origin, begins living in an area served by another division, the division of origin and the division in which the homeless child or youth is living shall agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin. If the divisions are unable to agree upon such method, the responsibility and costs for transportation shall be shared equally.

ADMISSION OF NONPUBLIC STUDENTS FOR PART-TIME ENROLLMENT

The Charles City County School Board acknowledges the provisions for equivalent instruction under Virginia law. The Board further observes that equivalent or "acceptable alternative" home or private school instruction is not the same as the education delivered in the public school system.

The parents of students attending private school or being home schooled pursuant to Va. Code § 22.1-254:1 who wish to enroll their students on a part-time basis in the Charles City County Public Schools for participation in academic and/or extracurricular/club activities shall, along with the students, conform with the following provisions:

I. Admission

The parents shall identify their children as private school or home school students who desire part-time enrollment in academic courses of study. Students admitted under this policy shall be designated as part-time students. At the time of applying for admission, students shall designate the academic course(s) they want to attend and each extracurricular or club activity in which they wish to participate. Students enrolled on a part-time basis will be counted in the division's average daily membership (ADM). Part-time students who are either enrolled in a nonpublic school or are receiving home instruction pursuant to Va. Code § 22.1-254.1 and are enrolled in any in arithmetic, science, English, history, social science, career and technical education, fine arts, foreign language, health education or physical education course in the Charles City County Public Schools shall be counted in the division's ADM on a pro rata basis. Each such course enrollment by such students will be counted as 0.25 in the ADM. However, no such nonpublic or home school student will be counted as more than one-half a student for purposes of such pro rata calculation. The pro rata calculation will not include enrollments of such student in any other public school courses.

Enrollment

Students must enroll in at least one academic class (high school) or one instructional unit (elementary/middle school) more than the requested course(s) and for each extracurricular or club activity in which they choose to participate. (Example: if the request is to enroll in one math class, the student must enroll in the math class plus one other class; and, if the student also requests one extracurricular/club activity, he or she must enroll in another class for a total of 3 classes.) If no activity participation is sought, a minimum of two classes must be attended. Students wishing to participate in an academic class shall have completed all prerequisite course work or the equivalent required of full-time public school students wishing to enroll in the course. If part-time enrollment causes to[^] enrollment in a class or grade level to exceed the maximum allowed by state or local policy (e.g. resulting in the need to employ another teacher) admission will be denied.

Once enrolled, the student shall comply with behavioral, disciplinary, attendance and other rules applicable to all students, including rules governing the use of the division's computer systems. If a student fails to comply, the school may withhold credit and/or terminate the student's participation in addition to taking any disciplinary action that would be taken against a full-time student for similar conduct.

III. Activities

Students wishing to participate in a Virginia High School League (VHSL) governed extracurricular or club activity shall satisfy the same or equivalent criteria for such activities that VHSL "take five pass five" requirement. Students admitted under this policy shall participate in any try-out or selection process required of full-time students.

IV. Transportation

The parents of the children for whom part-time admission is sought shall be responsible for the transportation of the child to and from school, including any expenses incident thereto.

V. Academic Credit

Class ranking and grade-point-average shall not be computed for part-time private/home school students.

STUDENT ABSENCES/EXCUSES/DISMISSALS

I. Student Attendance Policy

Student attendance is a cooperative effort and the School Board shall involve parents and students in accepting the responsibility for good attendance.

Each parent/guardian or person having control or charge of a child within the compulsory attendance age shall be responsible for such child's regular and punctual attendance at school as required under provisions of the law.

A reasonable effort shall be made to contact a parent/guardian of each absent student every day, and to obtain an explanation for the student's absence, where there is no indication that the student's parent is aware of and supports the absence. A log will be kept of call attempts.

Students who are absent must bring a valid note stating the reason for absence upon returning to school. Unexcused absences shall be handled according to regulations issued by the superintendent.

The superintendent's regulations will include procedures for excusing students who are absent by reason of observance of a religious holiday. Such regulations will ensure that a student is not deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, which he missed by reason of such absence, if the absence is verified in an acceptable manner.

Students shall attend school for a full day unless otherwise excused. Secondary students shall be scheduled for a full school day unless they are enrolled in a cooperative work-study program. All other exceptions to a full day schedule must be approved on an individual basis by the superintendent or designee.

High school students may spend school days each academic year participating in internship programs such as High School to Work Partnerships established pursuant to guidelines developed by the Board of Education. The superintendent's regulations will specify that students who miss a partial or full day of school while participating in Partnership programs will not be counted as absent for the purposes of calculating average daily membership. The regulations will also include procedures by which students may make up work missed while participating in a High School to Work Partnership.

Nothing in this policy shall be construed to limit in any way the authority of any attendance officer or the division superintendent to seek immediate compliance with the compulsory school attendance law,

II. Compulsory Attendance Procedures

A. Upon Fifth Absence Without Parental Awareness and Support

If (1) a student fails to report to school for a total of five scheduled school days for the school year, and (2) there is no indication that the student's parent is aware of and supports the absence; and (3) reasonable efforts to notify the parent of the absences have failed, then the Principal or his designee or the attendance officer shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, to obtain an explanation for the pupil's absence and to explain to the parent the consequences of continued nonattendance. The school principal or his designee or the attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance

B. Upon Sixth Absence Without Parental Awareness and Support

If the pupil is absent an additional day after direct contact with the pupil's parent and the attendance officer has received no indication that the pupil's parent is aware of and supports the pupil's absence, either the school principal or his designee or the attendance officer shall schedule a conference within ten school days, which must take place no later than the fifteenth school day after the sixth absence. At the conference, the pupil, his parent, and school personnel, shall meet to resolve issues related to the pupil's nonattendance. Other community service providers may also be included in the conference.

C. Upon Additional Absence Without Parental Awareness and Support

Upon the next absence after the conference without indication to the attendance officer that the pupil's parent is aware of and supports the pupil's absence, the Principal or designee shall notify the attendance officer or Superintendent or his designee who shall enforce the compulsory attendance rules by either or both of the following: (i) filing a complaint with the juvenile and domestic relations court alleging the pupil is a child in need of supervision as defined § 16.1-228 or (ii) instituting proceedings against the parent pursuant to § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts already undertaken to resolve the pupil's absence. If the student's parents have joint physical custody of the student and the school has notice of the custody arrangement, then both parents shall be notified at their last known addresses.

D. Parental Cooperation in Remediating Excessive Unexcused Absences

It is expected that parents will cooperate with the attendance officer and other school officials to remedy the student's attendance problem. Where direct contact with a parent cannot be made, despite reasonable efforts, or where parents otherwise fail to cooperate in remediating the student's attendance problem, the superintendent or the superintendent's designee may seek immediate compliance with the compulsory school attendance laws. The attendance officer, with the knowledge and approval of the Superintendent, shall institute proceedings against any parent who fails to comply with the requirements of the compulsory attendance laws. Where the complaint arises out of the parent's failure to comply with the requirements of § 22.1-258, the attendance officer shall document the school division's compliance with this Code section.

III. Report for Suspension of Driver's License

In addition to any other actions taken pursuant to this policy, if a student who is under 18 years of age has 10 or more unexcused absences from school on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

IV. Attendance Reporting

Student attendance shall be monitored and reported as required by state law and regulations. At the end of each school year, each public school principal shall report to the Superintendent the number of pupils by grade level for whom a conference was scheduled pursuant to Part II (B) above. The Superintendent shall compile this information and provide it annually to the Superintendent of Public Instruction.

V. Dismissal Precautions

Principals shall not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students shall be released only on request and authorization of parent or guardian. The superintendent shall provide procedures for release of pupils who are not residing with or under the suspension of a parent/guardian. The burden of proof on the authority of the person to receive the student is on the requesting party. A formal check-out system shall be maintained in each school.

STUDENT ABSENCES/EXCUSES/DISMISSALS

A. Generally

The administration and staff of the Charles City County Public Schools believe that regular attendance is valuable and critical to each student's academic achievement and personal success. Each parent or guardian having charge of a child within the compulsory attendance age shall be responsible for the child's regular and punctual attendance at school as required under provisions of state law. Students attending the Charles City County Public Schools are encouraged to attend school and class every day as there is a direct relationship between poor attendance and class failure. Students who have good attendance usually achieve higher grades, enjoy school more, and are likely to be more successful at the conclusion of their school careers than students who have poor attendance records.

Every teacher in every school in Charles City County shall keep an accurate daily or class record of attendance of all assigned students. Teachers are urged to stress the importance of regular attendance to their assigned students. Each meeting of the class should be planned so that regular attendance is a necessity if the student is to complete satisfactorily the requirement of the course. Excessive absenteeism from a class will then result in poor or unsatisfactory grades because of inability of the student to compensate fully for the class activities which were missed.

B. Attendance Expectations

To benefit maximally from the instructional program, students will be expected to arrive at school on time and maintain at least 95% attendance in a class in order to receive credit. Students shall attend school for a full day unless otherwise excused. Secondary students shall be scheduled for a full day unless they are enrolled in a cooperative work-study program. The Superintendent or the Superintendent's designee must approve all other exceptions to a full day schedule on an individual basis. A student who is approved to participate in a school-sponsored field trip or other approved activity shall be counted as in attendance.

A student who is tardy to school or leaves early from school, regardless of whether it is excused or not, may disrupt the learning environment for all students. For elementary and middle students, the principal or his/her designee must approve tardies to school or early dismissals from school. Any three unapproved tardies to school or early dismissals from school in a nine-week grading period will result in parental notification by telephone or written communication. Tardies to school or early dismissals from school may be considered excused for the same reasons as are listed for absences in Section C.

If a student misses 15 consecutive days, he/she is automatically withdrawn from the roll. However, if such student is subject to the compulsory attendance law, action must be taken by the school to enforce compulsory attendance. If a student is irregular in attendance due to illness, the school may request a doctor's statement. If the excused absence extends beyond 15 days because of illness, homebound instruction may be available.

The possibility of child neglect on the part of parents or guardians should be investigated in cases of habitual absenteeism.

All students must be present at school for the entire first period class in order to be marked present for the day.

C. Absences

There are times when a student is unable to attend school. Each parent or legal guardian having charge of a child enrolled in Charles City County Public Schools shall inform the school each day his or her child is absent all or part of any school day. School will make reasonable effort to contact a parent or legal guardian of each absent student every day and a log will be kept of contact attempts.

Absences that may be considered excused upon receipt of a valid written note or other form of notice approved by the school from the parent or guardian on the day of the student's return to school include:

1. Death in the family;
2. Bona fide religious observances;
3. Medical and dental appointments;
4. illness (for an accumulation of days for illness beyond three days the school will require a note from the physician. The days do not have to be consecutive.);
5. Other serious personal or family problems; and,
6. Extenuating circumstances which are determined by the school administration or the school administration and the superintendent.

The parent will be required to verify any absence within twenty-four hours or the absence will be classified as truancy and disciplinary action will be taken. For a day of absence for which there is no valid written excuse, the principal or his/her designee will make a reasonable effort to contact the parent or guardian directly. For repeated absences, the principal will initiate corrective actions as stated in Section D.

The Code of Virginia (22.1-258) requires that the school notify the parent when a student is absent from school.

D. Excessive Absences

Excessive absences are those which cause a student's attendance, at any point during the year to be lower than the expectations stated in Section B. A student who displays a pattern of excessive absences, tardies or early dismissals, whether excused or not, may be referred to the principal or his/her designee who shall investigate and recommend appropriate corrective action, including a conference with the parent or guardian, alternative placement or referral to the appropriate agencies, such as the Department of Social Services (TANF) and juvenile and domestic relations court

For any student whose absences exceed, during a semester, more than five (5) school days or five (5) class periods of a course scheduled daily or the equivalent class periods of a course on the block schedule, the principal or his/her designee may require a conference with the parent or guardian to discuss the implications for learning and achievement, the consequences of failure to attend school, and any corrective actions to be made. Further the principal or his/her designee may require documentation beyond the written excuse.

Any student whose absences exceed, during a school year, ten (10) school days in a year or ten (10) class periods of a course scheduled daily or five (5) class periods for a block class will not receive credit for the course unless the student completes tutoring or an alternate learning module as prescribed by the principal or his/her designee. The principal, in consultation with the Superintendent, may require the parent, guardian or student to pay for the costs associated with tutoring or the alternative learning module. The principal may waive this requirement upon consideration of extenuating circumstances. The consequence complies with the State Standards for Accrediting Public Schools that defines the standard awarding

course credit for graduation. For elementary and middle school students excessive absences may be a factor in decisions regarding a student's promotion to the next grade.

Unexcused Absences.

For any student whose absences are in excess of five (5) scheduled days for the school year and there is no indication that the parent is aware of and supports the student's absence, the principal or his/her shall make a reasonable effort to contact the parent directly to obtain an explanation and explain the consequences of non-attendance. A conference will be scheduled and a plan will be developed jointly with the parent and student to resolve the student's non-attendance. If the student is absent for an additional day after the direct contact and again the parent is unaware, a conference shall be scheduled with the parent and student within ten (10) days and held no later than 15 days after the sixth absence. Upon the seventh absence of which the parent unaware, the principal or his/her designee will notify the Intervention/Prevention Coordination to take the actions prescribed by VA Code § 22.1-258. Actions include with the juvenile and domestic relations court alleging the student is a child in need of supervision or (ii) instituting proceedings against the parent pursuant to Va. Code §§ 18,2-371 or 22.1-262.

In addition to any other actions taken pursuant to this policy, if a student driver who is under 18 years of age has 10 or more unexcused absences from school, or tardies to school, on consecutive school days, the principal may notify the juvenile and domestic relations court, which may take action to suspend the student's driver's license.

E. Consequences to Unsatisfactory Attendance

The parent and the student will be informed, in writing, when the student has three (3) absences from school or in a class. If the student reaches five (5) absences from school or in a course during a semester, the parent and student will receive a second notification to indicate that the student is in jeopardy of failing for the school year. Immediately upon the sixth (6) absence during the first semester and the tenth (10) absence for the year, the parent/guardian will be sent information about the waiver process and change in grade if the waiver is granted. *Parents should be aware that the 11th absence from school will result in failure for the school year. To apply for a waiver, the student and his/her guardian must follow the appeal process which takes place in a student/parent/school attendance meeting. When considering whether to grant a waiver, the student's entire attendance history for that semester must be considered.

To apply for a waiver, the student and his/her parent/guardian must follow the appeal process.

F. Make-up Work

It is the student's responsibility, or the responsibility of the parent or guardian of an elementary student, to communicate with the teacher on the day he or she returns to class to schedule the make-up of missed work. Students are expected to make up all work missed immediately upon return to class and in a time period not to exceed five (5) days from return to school. Students in grades three through 12 who turn in missed work after the established time period will receive a grade no higher than a 69; a student whose work earns a grade below 69 will receive the grade earned. The principal or his/her designee, however, may consider extenuating circumstances in extending the time limit.

G. Attendance Committee

To review requests for extensions of absences from school, each school will establish an attendance committee. The committee will consist of the principal or designee, Intervention/Prevention Coordinator, school nurse (if appropriate), teacher and/or department chair, school counselor and school psychologist (if appropriate).

When there is a request to do so, an Attendance Committee will review all cases exceeding the above mentioned five (5) days per semester or ten (10) days per year in order that consideration be given to those students who may have extenuating circumstances. The Attendance Committee shall have the power to waive this directive if warranted by the circumstances. Students and parents should note that the allocated days of the absence are to be used only as indicated in Section C above and Guideline 8 that follows:

The following guidelines will be used in implementing the policy;

1. A copy of the policy will be sent to each student's home at the beginning of each school year.
2. A copy of the policy and guidelines will be given to each student by his or her homeroom teacher.
3. Whoever an enrolled student is absent from school, the office will make contact with the home. Students are required to attend school for a full day unless otherwise excused. After every three (3) absences from school, the parent(s) or guardian will be notified in writing. **THE ABSENCES DO NOT HAVE TO BE SUCCESSIVE ABSENCES.** (Absences from class refer to absences other than for cutting class.) The teacher must turn in daily absentees to the office

If an attempt is made to contact the parent(s) or guardian(s) by phone and the contact is unsuccessful, the person trying to make contact must then send a letter. The person who makes the contact with the home must keep a record of the contact whether it is done by phone or in writing. In cases where written contact has been made, a copy of the correspondence **MUST** be kept on file. **DURING EACH CONTACT, THE PARENT OR GUARDIAN MUST BE INFORMED ABOUT THE LOSS OF CREDIT OR POSSIBLE GRADE RETENTION IF MORE THAN THE ALLOCATED DAYS ARE MISSED FROM SCHOOL/CLASS DURING A SEMESTER/YEAR.**

When the student has missed the fifth day from a semester course or the tenth (10) day from a year-long course, a letter will be sent from the principal reminding the parents or guardians of the consequences and inviting them to discuss the seriousness of the problem.

4. A student who is absent must bring a note, upon return, signed by a parent or guardian. The note should include the reason(s) for the absence as well as the date(s).
5. Students are expected to make up all work missed because of absence. It is the student's/parent's responsibility to make arrangements with the grade/subject teacher to make up work within five (5) days after returning to class. Students who fail to make the necessary arrangements will forfeit their rights to make up work and will receive a failing grade for any such work that was missed.

6. School sponsored or sanctioned activities are exempt from, and will not count toward, the total absences. Even though students may be absent because of school-related activities, they are still expected to make up any work that is missed.
7. Students will lose credit in a course after exceeding ten (10) unexcused days.
8. The five (5) days of absence per semester or the 10 days of absence per year allowed in the Policy are to take care of parental excuses (notes) for:
 - a. Death in the family;
 - b. Bona fide religious observances;
 - c. Medical and dental appointments;
 - d. Personal illness (if over three days, the school may require a note from the physician. The days do not have to be consecutive.);
 - e. Other serious personal or family problems; and,
 - f. Extenuating circumstances which are determined by the school administration or the school administration and the superintendent.
9. After a student has missed more than the allocated days, a final notice will be sent to the parents or guardians. The parent(s) or guardian(s) may request that an Attendance Committee meet by calling the principal within two weeks of the mailing date of failure notice. Extenuating circumstances, with written documentation presented at a conference by the parent, MAY be reviewed by the Attendance Committee to determine if consideration for changing the grade needs to be given.
10. NONE OF THE AT LOCATED DAYS ARE TO BE USED AS SKIP DAYS.
11. A student who is suspended from school for a disciplinary problem for any number of days will have that number charged against the total absences. If suspension for any number of days causes the student to reach or pass the 10th day, the student will be in jeopardy of failing the course or grade. (Refer to item # 8 of the policy.)

H. Tardiness

Tardiness is to be avoided at all cost. Being tardy to class means loss of valuable instruction for each student. If a student is tardy during the homeroom period or after homeroom, an excuse written and signed by the parent or guardian is necessary and must be presented to the school administration office. A student who is tardy to school will be marked tardy to school only and not his first period class. Consequences will be applied as stated in the Student Code of Conduct, Section 1.

1. Tardies Verification: Student must bring a note signed by a parent/guardian or doctor in order for the tardy to be "excused."
2. Early Dismissal Verification: A note is required from the parent/guardian, including a daytime phone number, to verify the reason or dismissal.

Parents must be communicated with immediately when tardies and early dismissals are negatively affecting a student's progress.

Any tardiness to class during the day will be unexcused unless a certified pass has been signed by the school administration.

High School and Middle School students who report to school after 7:30 a.m. and Elementary School students who report to school after 8:45 a.m., must report to the main office to sign in. Students will be issued an admit slip and will then report to the assigned class. Teachers will not accept students to class after 7:35 a.m. at the Middle School and High School and after 8:50 a.m. at the Elementary School, unless they have an admit slip from the office or have otherwise been notified by the administration to admit the student. The attendance aide will notify the administrators when a student has accumulated three unexcused tardies to school or class. A student who is tardy to school will be marked tardy to school only and not his/her first period class. The administrator will notify the student and his or her parents/guardian of the consequences of a fourth unexcused tardy. Furthermore, the attendance aide will notify the administrators of all subsequent tardies.

Tardiness Consequences

Elementary School. Middle School/High School:

1 st -3 rd Tardies	Level 1 and parents notified by telephone or email contact.
4 th Tardy	Level 2 and parents notified.
5 th Tardy	Overnight suspension and parent/legal guardian must accompany the student back to school.
6 th Tardy	Students will be referred to the Intervention/Prevention Coordinator.

Note: Tardies will re-set at zero at the completion of the first semester.

Student Drivers: High school students who drive to school and are tardy to school 3 days per semester will have their driving privileges revoked for two weeks. Student drivers who are tardy to school for 5 days per semester will have their driving privileges revoked for one month upon accumulation of the fifth tardy. The process will repeat itself if student drivers continue to accumulate tardies.

I. Class Attendance

A student must be present for two-thirds (2/3) of a class period to be counted as present for the class. Therefore, students will need to be present for sixty (60) minutes in the block classes. In a class that meets daily, students will need to be present for forty (40) minutes.

All students must be present at school for the entire first period class in order to be marked present for the day.

Any student on the school grounds is expected to be in his or her assigned class. Any student caught elsewhere without an authorized excuse is subject to suspension. No student should leave from any class without a pass.

J. Student Incentives for Good Attendance

Semester Exams: With the parent's approval, a senior who maintains an "A" average and who misses no more than two (2) days* during a semester, may be exempt from the semester/exam. **Passing the End of Course (EOC) SOL test may be used to exempt students from taking the semester exam with teacher approval.**

NOTE: Any student who is exempt may take the semester exam with the option of the exam not having any adverse impact on the semester grade.

NOTE: Any student who has been suspended or placed in ISS during a semester will not be exempted from taking the semester exam for that semester.

Any student absence resulting from the student's observance of a religious holiday shall not be counted as an absence for purpose of this policy provided that the parent/guardian of the student notifies the principal in writing in accordance with Board policy. This notification shall specify:

- a. The date(s) of the absence(s).
- b. The name of the religious holiday; and
- c. That the absence is due to the exercise of the student's bona fide religious beliefs.

AP EXAMS: There will be no exam exemption for the students enrolled in AP courses. Students enrolled in AP courses are required to take the exams.

K. Attendance Policy Appeal Process

The following guidelines shall apply for recommending appeals to the attendance policy:

1. An "Attendance Appeal Request Form" for an attendance waiver of the attendance policy must be submitted to the principal by the parent/guardian of the student in question no later than the last ten (10) school days prior to the end of the semester. **No appeal request will be accepted after last day of the semester.**
2. If the 11 absence, or the block scheduling equivalent, occurs within the last ten (10) days of the first semester, the request for the waiver must be submitted to the principal within 24 hours. If the 11 absence, **or the block scheduling equivalent**, occurs within the last ten (10) days of the second semester, the request for the waiver must be submitted to the principal within 24 hours.
3. The principal will meet with the student and parent to consider all the evidence and documentation of extenuating circumstances. The student and parent will be notified within five (5) school days. A completed, signed "Attendance Appeals Request Form" will be forwarded to the appropriate committee member.
4. Within five (5) school days, the parent/guardian may appeal the principal's decision by completing the appropriate section of the appeal form and returning the form with the required documentation to the principal.
5. Within five (5) school days, the principal shall forward all information to the School-Court Liaison's office at the School Administrative Office.
6. Within five (5) school days of receipt of the appeals form, the principal will schedule a meeting of the Attendance Policy Appeals Committee to consider the appeal.
7. The principal will notify all parties of the appeal meeting.
8. The Committee shall consist of members or their designees as delineated in Section G.
9. The parent and student will receive written notification of the committee's decision within five (5) school days of the hearing.
10. The decision of the committee will be final.

EXCLUSIONS AND EXEMPTIONS FROM SCHOOL ATTENDANCE

The School Board shall excuse from attendance at school:

1. Any student who, together with his parents, by reason of bona fide religious training or belief is conscientiously opposed to attendance at school.
2. On the recommendation of the juvenile and domestic relations court of the city or county in which the student resides, and for such period of time as the court determines appropriate, any student who, together with his parents, is opposed to attendance at a school by reason of concern for the student's health as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for person's safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

The School Board may excuse from attendance at school:

1. On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any student who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at school; or
2. On recommendation of the juvenile and domestic relations district court of the city or county in which the student resides, any student who, in the judgment of the court, cannot benefit from education at school.

Any request for exemption from attendance shall be presented annually in writing to the superintendent or his/her designee.

The compulsory education requirements do not apply to

- Children suffering from contagious or infectious diseases;
- Children whose immunizations against communicable diseases have not been completed;
- Children under 10 years of age who live more than two miles from a public school unless public transportation is provided within one mile of the place where such children live; and
- Children between the ages of 10 and 17, inclusive, who live more than 2.5 miles from a public school unless public transportation is provided within 1.5 miles of the place where such children live.

In addition, any child who will not have reached his sixth birthday on or before September 30 of each school year whose parent or guardian notifies the school board that he does not wish the child to attend school until the following year because the child, in the opinion of the parent or guardian, is not mentally, physically, or emotionally prepared to attend school, may delay the child's attendance for one year.

STUDENT CONDUCT

The standards of student conduct are designed to define the basic rules and major expectations of students in the public schools of Charles City County. It is the responsibility of the Charles City County School Board to adopt policy and regulations and the administration to issue regulations establishing rules of conduct for student behavior in order to protect the health, safety and welfare of its students. The local school principal has the responsibility and authority to exercise reasonable judgment in enforcing this Code of Conduct. Principals are responsible for ensuring that all students, staff members, and parents are provided the opportunity to become familiar with this policy.

The superintendent shall issue Standards of Student Conduct, and a list of possible corrective actions for violation of the Standards of Conduct. Each parent of a student enrolled in public school has a duty to assist the school in enforcing the standards of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights. The Standards of Student Conduct, a notice of the requirements of section 22.1-279.3 of the Code of Virginia, 1950, as amended, and a copy of the compulsory school attendance law shall be sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of the Standards of Student Conduct, the requirements of Va. Code §22.1-279.3, and the compulsory school attendance law shall also be sent. Parents shall be notified that by signing the statement of receipt, parents are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school shall maintain records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or his designee to review the School Board's Standards of Student Conduct and the parent's or parents responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law, and to discuss improvement of the child's behavior, school attendance, and educational progress. The administrator of the building should exercise reasonable judgment and consider the circumstances in determining the disciplinary action to be administered.

Each student has the right to expect an educational environment in which he or she can strive to achieve his or her intellectual potential. The student is expected to attend school regularly, be diligent in his/her studies and conduct him/herself in such a way that the right and privileges of others are not violated. The student is expected to accept and demonstrate the obligation of good citizenship to help prevent problems from happening and help solve problems as they occur.

All parents are expected to assume responsibility for the student's behavior and assist the school in enforcing the Standards of Student Conduct and compulsory school attendance. Parents are also expected to maintain regular communication with school authorities, monitor and require daily attendance, and bring to the attention of the school authorities any problem that affects the student or other children in the school. It is the parents' responsibility to notify the school of any unusual behavior pattern or medical problem that might lead to serious difficulties.

The school principal may notify the parents of any student who violates a School Board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of court petition. The notice shall state (1) the date and particulars of violations; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the students to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or his designee shall notify the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

If a parent fails to comply with the requirements of this policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

Students are subject to corrective action for any misconduct that occurs:

- in school or on school property;
- on a school vehicle;
- while participating in or attending any school sponsored activity or trip;
- on the way to and from school; and
- off school property, when the acts lead to: (1) an adjudication of delinquency pursuant to Va. Code § 16.1-305.1 or a conviction for an offense listed in Va. Code § 16.1-260 or (2) a charge that would be a felony if committed by an adult.

Unlawful acts which will lead to police notification and may lead to suspension from classes, exclusion from activities, or expulsion include but are not limited to:

- possession or use of alcohol, illegal drugs, including marijuana, synthetic cannabinoids as defined in Va. Code § 18.2-248.1:1, and anabolic steroids, or drug paraphernalia;
- selling drugs;
- assault/battery;
- sexual assault;
- arson;
- intentional injury (bullying, fighting);
- theft;
- bomb threats, including false threats, against school personnel or school property;• use or possession of explosives (see Policy JFCD);
- possession of weapons or firearms (see Policy JFCD);
- extortion, blackmail, or coercion;
- driving without a license on school property;
- homicide
- burglary
- sex offenses (indecent exposure, obscene phone calls, sodomy, and child molestation);

- malicious mischief;
- shooting;
- any illegal conduct involving firebombs, explosive or incendiary devices or materials, hoax explosive devices or chemical bombs;
- stabbing, cutting or wounding;
- unlawful interference with school authorities including threats;
- unlawful intimidation of school authorities; and
- other unlawful acts including being an accessory to any of these or other unlawful acts.

Any student involved in a reportable drug or violent incident shall participate in intervention activities deemed appropriate by the Superintendent or his/her designee. Further, any student who has been found to be in possession of or under the influence of drugs or alcohol on school property or at a school sponsored activity may be required to (1) undergo evaluation for drug or alcohol abuse and (2) participate in a drug and/or alcohol treatment program if recommended by the evaluator and if the parent consents.

The superintendent shall issue regulations listing additional actions which may be cause for corrective action and if serious enough or exhibited repeatedly may lead to suspension or expulsion.

The School Board shall biennially review the model student conduct code developed by the Board of Education to incorporate into policy a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

TEACHER REMOVAL OF STUDENTS FROM CLASS

Teachers have the initial authority to remove students from class for disruptive behavior. "Disruptive behavior" means a violation of School Board regulations governing student conduct that interrupts or obstructs the learning environment.

Criteria for Removal

In order for a teacher to remove a student from class for disruptive behavior

- removal of the student from the class must be necessary to restore a learning environment free from interruptions and obstructions caused by the student's behavior
- interventions by the teacher and/or administrators have been attempted and failed to end the student's disruptive behavior, and
- notice of the student's disruptive behavior and the opportunity to meet with the teacher and/or school administrators must have been provided to the student's parents as described below.

When all of the above criteria has been satisfied, a teacher may remove a student from class.

Requirements for Incident Reports

Teachers should write incident reports regarding all incidents of disruptive behavior. The reports will be filed with the school administration and provided to the student's parents within 24 hours of an incident. The parents must be given the opportunity to meet with the teacher and/or school administrator to discuss the student's behavior and the possible consequences if the behavior continues. The teacher will document, in writing, his or her attempts to request and encourage the parents to meet with him or her or school administrators.

A student may not be removed from class for disruptive behavior unless two written incident reports have been filed with school administrators and provided to the student's parents concerning two prior incidents of disruptive behavior. Upon removal, the teacher shall file a Student Removal Form" (JFCA-E) with school administrators. The teacher will include any other documentation supporting the removal including, but not limited to, the previous two incident reports.

Procedures for Written Notification of Student and Parents

The teacher shall provide copies of any incident report and Student Removal Form to the student and his or her parents and notify them of the opportunity to meet with the teacher and/or school administrators to discuss the behavior and the possible consequences if the behavior continues. Such notice shall be provided within twenty-four hours of each incident. The teacher shall document, in writing, his or her attempts to request and encourage the parents to meet with school administrators and/or the teacher. Such notice and documentation shall be required for each incident report and student removal.

Guidelines for Alternative Assignment and Instruction of Removed Students

The Principal shall determine the appropriate placement of any student removed from class by a teacher. The principal may

- assign the student to an alternative program
- assign the student to another class
- send the student to the principal's office or study hall. If the principal chooses this option, the teacher shall provide and evaluate appropriate make-up work for the student
- suspend the student or recommend the student for expulsion. If the principal chooses this option, alternative instruction and assignment, if any, shall be provided according to School Board policy and in the case of students with disabilities, in accordance with federal law
- return the student to class in accordance with the procedures below

Procedure for the Student's Return to Class

The principal shall determine, after consultation with the teacher, the duration of the Student's removal from class. The principal shall notify the teacher of the decision to return the student to class. If the teacher disagrees with the principal's decision to return a student to the class

- the teacher and principal shall discuss the teacher's objection to returning the student to class and the principal's reason for returning the student.
- the teacher, after meeting with the principal, may appeal the principal's decision to the superintendent or designee within one school day. The incident reports and removal form must accompany the appeal. After discussion with the principal and teacher or receiving their written comments, the decision of the superintendent or designee shall be final. The decision shall be made within forty-eight hours of the teacher's appeal. During the appeal process, the student shall not be returned to class and the principal will determine an appropriate placement for the student.

Once the decision has been made to return the student to class, the teacher and principal shall develop a plan to address future disruptive behavior.

Other Provisions

The principal shall ensure that students removed from class under this policy continue to receive an education in accordance with School Board policies.

Application of this policy to students with disabilities shall be consistent with federal and state law and regulations as well as School Board policy regarding students with disabilities.

Teacher deficiencies in classroom management shall be addressed in teacher evaluations pursuant to Policy GCN Evaluation of Professional Staff.

This policy does not limit or restrict the ability of School Board employees to apply other policies, regulations or laws for maintaining order in the classroom.

SEARCH AND SEIZURE

To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any item described as unauthorized in school rules available beforehand to the student.

Student desks and lockers are the property of the school, and may be used for the storage of permitted student belongings only. School officials retain locker combinations and reserve the right to search desks and lockers as well as to open lockers at any time for repairs. A general search of lockers or desks may be conducted to repossess school property or to locate illegal materials. A random, systemic, non-selective search of student classrooms, desks, lockers or automobiles may be conducted by school officials in accordance with a pre-determined search formula. Students are responsible for the content of their assigned locker at all times. The student's individual right to privacy and freedom from unreasonable search and seizure is balanced by the school's responsibility to protect the health, safety, and welfare of all persons within the school community. Should illegal materials be found during a search, law enforcement officials should be notified.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property, but may be conducted wherever the student is involved in a school-sponsored function.

PERSONAL SEARCHES

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school officials whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

A personal search may include requiring a student to be scanned with a metal detector.

A pat down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches may only be used when an extremely serious situation exists requiring immediate action. Such a search should be used only in the context of imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and the school official must have the prior approval of the superintendent or his designee, unless the health or safety of the student is endangered by the delay.

LOCKER SEARCHES

Student lockers are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspection of lockers may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant.

AUTOMOBILE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

COMPUTER SEARCHES

School computers, software and internet access are school property. Students are only authorized to use school computers and other similar educational technology consistent with the mission of the school. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

CONSENT SEARCHES

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent. Students should be told of their right to refuse to be searched, and students must not perceive himself at risk of punishment for refusing to grant permission for the search.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.

If the Compliance Officer determines that more than 14 school days will be required to investigate the complaint, the complainant and the accused shall be notified of the reason for the extended investigation and of the date by which the investigation will be concluded.

If the alleged harassment may also constitute child abuse, then it must be reported to the Department of Social Service in accordance with Policy JHG, Child Abuse and Neglect Reporting.

The investigation may consist of personal interviews with the complainant, the alleged harasser, and any others who may have knowledge of the alleged harassment or the circumstances giving rise to the complaint. The investigation will consider witnesses and evidence from both the alleged harasser and the person allegedly harassed. The investigation may also consist of the inspection of any other documents or information deemed relevant by the investigator. The school division shall take necessary steps to protect the complainant and others pending the completion of the investigation.

In determining whether alleged conduct constitutes a violation of this policy, the division shall consider, at a minimum: (1) the surrounding circumstances; (2) the nature of the behavior; (3) past incidents or past or continuing patterns of behavior; (4) the relationship between the parties; (5) how often the conduct occurred; (6) the identity of the alleged perpetrator in relation to the alleged victim (i.e. whether the alleged perpetrator was in a position of power over the alleged victim); (7) the location of the alleged harassment; (8) the ages of the parties and (9) the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a case by case determination based on all of the facts and circumstances revealed after a complete and thorough investigation. The Compliance Officer shall issue a written report to the superintendent upon completion of the investigation. If the complaint involves the superintendent, then the report shall be sent to the School Board. The report shall include a determination of whether the allegations are substantiated, whether this policy was violated and recommendations for corrective action, if any.

All employees shall cooperate with any investigation of alleged harassment conducted under this policy or by an appropriate state or federal agency.

3. Action by Superintendent

Within 5 school days of receiving the Compliance Officer's report, the superintendent or designee shall issue a decision regarding whether this policy was violated. This decision must be provided in writing to the complainant and the alleged perpetrator. If the Superintendent or designee determines that it is more likely than not that prohibited harassment occurred, the Charles City County School Division shall take prompt, appropriate action to address and remedy the violation as well as prevent any recurrence. Such action may include discipline up to and including expulsion or discharge. Whether or not the Superintendent or designee determines that prohibited harassment occurred, the Superintendent or designee may determine that school-wide or division-wide training be conducted or that the complainant receives counseling.

4. Appeal

If the superintendent or designee determines that no prohibited harassment occurred, the employee or student who was allegedly subjected to harassment may appeal this finding to the School Board within 5 school days of receiving the decision. Notice of appeal must be filed with the superintendent who shall forward the record to the School Board. The School Board shall make a decision within 30 calendar days of receiving the record. The School Board may ask for oral or written argument from the aggrieved party, the superintendent and any other individual the

School Board deems relevant. Written notice of the School Board's decision will be given to both the alleged harasser and the person allegedly harassed.

If the Superintendent or designee determines that prohibited harassment occurred and discipline is imposed, the disciplined person may appeal the disciplinary sanction in the same manner as any other such sanction would be appealed.

Employees may choose to pursue their complaints under this policy through the relevant employee grievance procedure instead of the complaint procedure in this policy.

5. Compliance Officer and Alternate Compliance Officer

The Charles City County School Board has designated Melvin D. Robertson, Director for Administrative Services, 10910 Courthouse Road, Charles City, Virginia 23030, (804) 652-4612, mdrobertson@co.charles-city.va.us. as the Compliance Officer responsible for identifying, investigating, preventing and remedying prohibited harassment. Complaints of harassment may also be made to the Alternate Compliance Officer Bonnie C. - conduct or oversee the investigation of any alleged harassment;
- assess the training needs of the school division in connection with this policy;
- arrange necessary training to achieve compliance with this policy; and
- ensure that any harassment investigation is conducted by an impartial investigator who is trained in the requirements of equal employment/education opportunity, and has the authority to protect the alleged victim and others during the investigation.

B. Informal Procedure

If the complainant and the person accused of harassment agree, the student's principal or designee may arrange for them to resolve the complaint informally with the help of a counselor, teacher, or administrator.

If the complainant and the person accused of harassment agree to resolve the complaint informally, they shall each be informed that they have the right to abandon the informal procedure at any time in favor of the initiation of the Formal Procedures set forth herein. The principal or designee shall notify the complainant and the person accused of harassment in writing when the complaint has been resolved. The written notice shall state whether prohibited harassment occurred.

IV. Retaliation

Retaliation against students or school personnel who report harassment or participate in any related proceedings is prohibited. The school division shall take appropriate action against students or school personnel who retaliate against any student or school personnel who reports alleged harassment or participates in related proceedings. The Compliance Officer will inform persons who make complaints, who are the subject of complaints, and who participate in investigations, of how to report any subsequent problems.

V. Right to Alternative Complaint Procedure

Nothing in this policy shall deny the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited harassment including initiating civil action, filing a complaint with outside agencies or seeking redress under state or federal law.

VI. Prevention and Notice of Policy

Training to prevent harassment based on sex, gender, race, color, national origin, disability, religion, ancestry, age, marital status, and genetic information should be included in employee and student orientations as well as employee in-service training.

This policy shall be (1) displayed in prominent areas of each division building in a location accessible to students, parents and school personnel, (2) included in the student and employee handbooks; and (3) sent to parents of all students within 30 calendar days of the start of school. Further, all students[^], and their parents/guardians, and employees shall be notified annually of the names and contact information of the Compliance Officers.

VII. False Charges

Students or school personnel who knowingly make false charges of harassment shall be subject to disciplinary action as well as any civil or criminal legal proceedings.

II. SUSPENSIONS AND EXPULSIONS OF STUDENTS GENERALLY

Pupils may be suspended or expelled from attendance at school for sufficient cause; however, in no case may sufficient cause for suspension include only instances of truancy.

Any student for whom the division superintendent of the school division in which the student is enrolled has received a report pursuant to Va. Code § 16.1-305.1 of an adjudication of delinquency or a conviction for an offense listed in subsection G of Va. Code § 16.1-260 may be suspended or expelled from school attendance.

The authority of teachers to remove students from their classes in certain instances of disruptive behavior shall not be interpreted to affect the operation of this Policy.

III. SHORT-TERM SUSPENSIONS

A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as is practical thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension shall report the facts of the case in writing to the division superintendent or his designee and the parent of the pupil suspended. The division superintendent or his designee shall review forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirm or disapprove such action based on an examination of the record of the pupil's behavior.

The decision of the division superintendent or his designee may be appealed to the School Board unless the School Board has provided by regulation that the decision of the division superintendent or his designee shall be final.

Any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days shall include notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, shall be borne by the parent of the student.

IV. LONG-TERM SUSPENSION

A pupil may be suspended from attendance at school for more than ten days after written notice is provided to the pupil and his parent of the proposed action and the reasons therefore and of the right to a hearing before the School Board or the superintendent or his designee, in accordance with regulations of the School Board. If the regulations provide for a hearing by the superintendent or his designee, the regulations shall also provide for an appeal of the decision to the full School Board. Such appeal shall be decided by the School Board within thirty days.

The written notice of a suspension for more than ten days shall include notification of the length of the suspension and shall provide information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice shall also state that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the School Board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension shall be borne by the parent of the student.

Nothing herein shall be construed to prohibit the School Board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the School Board for the term of such suspension.

V. EXPULSION

A. Generally

Pupils may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board in accordance with the regulations of the School Board. The regulations shall provide for subsequent confirmation or disapproval of the proposed expulsion by the School Board regardless of whether the pupil has exercised the right to a hearing.

The written notice given to the pupil and his parent shall include notification of the length of the expulsion and shall provide information to the parent of the student concerning the availability of community-based educational, training, and intervention programs. The notice shall also state whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the School Board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this Policy shall be construed to prohibit the School Board from permitting or requiring students expelled pursuant to this Policy to attend an alternative education program provided by the School Board for the term of such expulsion.

If the School Board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice shall also advise the parent of such student that the student may petition the School Board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

The School Board shall establish, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule shall be designed to ensure that any initial petition for readmission will be reviewed by the School Board or the division superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the division superintendent denies such petition, the student may petition the School Board for review of such denial.

B. Conduct Giving Rise to Expulsion

Recommendations for expulsions for actions other than those specified below shall be based on consideration of the following factors:

- the nature and seriousness of the conduct;
- the degree of danger to the school community;
- the student's disciplinary history, including the seriousness and number of previous infractions;
- the appropriateness and availability of an alternative education placement or program;
- the student's age and grade level;
- the results of any mental health, substance abuse, or special education assessments;
- the student's attendance and academic records; and
- other appropriate matters.

No decision to expel a student shall be reversed on the grounds that such factors were not considered. Nothing in this subsection shall be deemed to preclude a School Board from considering any of the factors listed above as "special circumstances" for purposes of expulsions discussed in the following subsections.

Firearms

The School Board shall expel from school attendance for a period of not less than one year any student whom the School Board has determined to have possessed a firearm on school property or at a school-sponsored activity as prohibited by Va. Code § 18.2-308.1, or to have possessed a firearm or destructive device as defined in this policy, a firearm muffler or firearm silencer, or a pneumatic gun as defined in this policy on school property or at a school-sponsored activity. A school administrator, pursuant to School Board policy, or the School Board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate.

The exemptions set out in Va. Code § 18.2-308 regarding concealed weapons shall apply, mutatis mutandis, to the provisions of this Policy. The provisions of this policy shall not apply to persons who possess such firearm or firearms or pneumatic guns as a part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such.

Drug Offenses

The School Board shall expel from school attendance any student whom the School Board has determined to have brought a controlled substance, imitation controlled substance, or marijuana as defined in Va. Code § 18.2-247, or synthetic cannabinoids as defined in § 18.2-248.1:1 onto school property or to a school sponsored activity. The School Board may, however, determine, based on the facts of the particular case that special circumstances exist and another disciplinary action is appropriate.

C. Procedure for School Board Hearing

The procedure for the School Board hearing shall be as follows:

- The School Board shall determine the propriety of attendance at the hearing of persons not having a direct interest in the hearing. The hearing shall be private unless otherwise specified by the School Board.
- The School Board may ask for opening statements from the principal or his representative and the student or his parent(s) (or their representative) and, at the discretion of the School Board, may allow closing statements.
- The parties shall then present their evidence. Because the principal has the ultimate burden of proof, he shall present his evidence first. Witnesses may be questioned by the School Board members and by the parties (or their representative). The School Board may, at its discretion, vary this procedure, but it shall afford full opportunity to both parties for presentation of any material or relevant evidence and shall afford the parties the right of cross-examination provided, however, that the School Board may take the testimony of student witnesses outside the presence of the student, his parent(s) and their representative if the School Board determines, in its discretion, that such action is necessary to protect the student witness.

- The parties shall produce such additional evidence as the School Board may deem necessary. The School Board shall be the judge of the relevancy and materiality of the evidence.
- Exhibits offered by the parties may be received in evidence by the School Board and, when so received, shall be marked and made part of the record.
- The School Board may, by majority vote, uphold, reject or alter the recommendations.
- The School Board shall transmit its decision, including the reasons therefore, to the student, his parent(s), the principal and superintendent.

VI. ALTERNATIVE EDUCATION PROGRAM

The School Board may require any student who has been (1) charged with an offense relating to the laws of Virginia, or with a violation of School Board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent of the school division pursuant to f § 16.1-260.G; (2) found guilty or not innocent of an offense relating to Virginia's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent of the school division pursuant to Va. Code § 16.1-260.G; (3) found to have committed a serious offense or repeated offenses in violation of School Board policies; (4) suspended pursuant to Va. Code § 22.1-277.05; or (5) expelled pursuant to Va. Code § 22.1-277.06, 22.1-277.07, or 22.1-277.08 or subsection B of Va. Code §22.1-277, to attend an alternative education program. The School Board may require such student to attend such programs regardless of where the crime occurred. The School Board may require any student who has been found to have been in possession of, or under the influence of, drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of School Board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

A principal (or his designee) may impose a short-term suspension, pursuant to Va. Code § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in Va. Code § 16.1-260.G, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

As used herein, "charged" means that a petition or warrant has been filed or is pending against a pupil.

VII. REPORTING

- A. Except as may otherwise be required by federal law, regulation, or jurisprudence, reports shall be made to the division superintendent and to the principal or his designee on all incidents involving
1. the assault, or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity;

- B. The division superintendent and the principal or his designee shall receive reports made by local law enforcement authorities on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act, Va. Code § 54.1-3400 et seq., and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in the clauses (1) through (8) of subsection VILA, of this policy, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. A superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of Va. Code § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.
- C. The principal or his designee shall submit a report of all incidents required to be reported pursuant to subsection VI.A.(1-8) of this policy to the superintendent of the school division. The division superintendent shall annually report all such Incidents to the Department of Education.
In submitting reports of such incidents, principals and division superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law enforcement authorities and required to be reported by such authorities pursuant to subsection VII.B. of this policy.
- D. The principal or his designee shall also notify the parent of any student involved in an Incident required by this subsection to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include Information concerning other students.

- E. Whenever any student commits any reportable incident as set forth in this subsection, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be Identified In the local school division drug and alcohol violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV-Safe and Drug-Free Schools and Communities Act).

In addition, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (2) through (5) of subsection VILA of this policy that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report that the Incident has been reported to local law enforcement as required by law and that the parents may contact local law enforcement for further information. If they so desire.
- G. For purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

VII. RE-ADMISSION OF SUSPENDED AND/OR EXPELLED STUDENTS

Any student who has been suspended from a school of this division is not eligible to attend any other school within the division until eligible to return to his or her regular school.

Any student who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance in the Charles City County Public Schools, in accordance with Policy JEC (G). In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the School Board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The School Board shall not impose additional conditions for readmission to school.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

If the parent fails to comply with this policy or Policy JEC, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the School Board or superintendent or his designee, as the case may be at the relevant hearing, the student may re-petition the School Board for admission. If the petition for admission is rejected, the School Board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the School Board for admission.

The School Board may permit students excluded pursuant to this subsection to attend an alternative education program provided by the School Board for the term of such exclusion.

STUDENT SUSPENSION/EXPULSION REGULATIONS

DUE PROCESS PROCEDURES: SHORT TERM SUSPENSION

Begin in the School

The Appeal Process begins in the school with the suspending administrator. The Code of Virginia gives the principal or designee the authority to make a determination based on an investigation that a student has violated a rule that may require a suspension for 10 days or less.

Meet With the Principal with Written Request for Appeal

If the student is suspended by a principal's designee the appeal is to the building principal. The parent/guardian must request in writing a review of the suspension decision within three (3) school days or the decision becomes final.

The principal will review the incident and within three (3) school days report the decision in writing to the parent/guardian.

Review by Administrative and Alternative Services

If the parent is requesting an appeal of the principal's decision to suspend a student, the written request must be submitted within three (3) school days of the principal's decision or the decision becomes final. The appeal is submitted to the superintendent's office.

Within three (3) school days after receipt of the notice of appeal, the superintendent or designee will review the actions taken by the principal/designee, and confirm or disapprove such action based on an examination of the record of the student's behavior.

DUE PROCESS PROCEDURES: LONG TERM SUSPENSION OR EXPULSION APPEAL TO THE SCHOOL BOARD

Appeal of the superintendent's decision regarding long-term suspension or expulsion shall be made within 7 days of the receipt of the decision of the superintendent or designee.

The School Board hears the final appeal in the disciplinary process in response to appeals of the decision of the superintendent or designee, the Board:

- Provides a hearing within 30 days of any appeal.
- Provides all due process rights to the student.
- Within 7 school days after the appeal hearing, provides a written report of its actions to the principal, parent (s)/guardian, and student.

All days included in a due process and appeal procedure are student school days, not calendar days.

Suspension Make Up Work Procedures

For the purposes of this policy, a suspension will be defined for a stated time, not to exceed ten days. Students may not make up work for credit once he or she has accumulated ten (10) suspension days per school year.

Students recommended for long term suspension (more than ten days, but less than 180 days) or expulsion (180 days or more) will not be allowed to make up work until a final decision has been made in his/her case. Alternative community and/or school resources will be made available to the student.

The following make up work procedures will be followed when a suspension does not exceed ten days:

MAKE UP WORK

Students will be allowed to make up work for full credit missed in a class under the following conditions:

- a. Students may make up work for credit for suspensions up to ten days per school year.
- b. Students, who miss more than 20 days in a daily class, or 10 days in a block schedule class, will not receive credit for the class without tutoring or some other alternative program.
- c. Long term projects and assignments assigned during a suspension will be due on the original date established for the rest of the class.

Students are responsible for arranging to have previously assigned work done during his/her suspension submitted to the school office no later than 3:00 P.M. on the date the work was originally due. Students, per School Board policy, are not allowed on school grounds during a suspension; therefore, arrangements must be made for someone other than the student to take the work to school.

MAKE UP WORK FORM

Student must request make up work by securing a make-up work form, from the office during reinstatement after the first suspension.

The student shall provide an appropriate copy to each teacher at the first class session following reinstatement after the suspension.

DISCIPLINING STUDENTS WITH DISABILITIES

Students with disabilities, who violate the student code of conduct, or engage in conduct for which they may be disciplined, will be disciplined in accordance with this policy. Additionally, the regular disciplinary procedures must be followed. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability as a result of discipline.

I. Long-Term Suspensions, Expulsions or Short-Term Suspensions, Which Constitute a Pattern Change in Placement

For the purpose of removing students with disabilities from their current educational placements, a change in placement occurs when:

- (1) the removal is for more than 10 consecutive school days at a time; or
- (2) there is a series of removals each of which is for 10 days or less and they cumulate to more than 10 days in a school year and constitute a pattern because of:
 - (a) the length of each removal,
 - (b) the proximity of the removals,
 - (c) the total time the student is removed, and
 - (d) the child's behavior is substantially similar to the child's behavior in previous incidents.

If the disciplinary action will result in a change of placement for a student with a disability then that student's parents must be sent notice that same day of the recommendation for discipline and be provided with a copy of the procedural safeguards. The procedures outlined in Section IV must also be followed.

II. Short-Term Suspension

A short-term suspension is a suspension of 10 consecutive days or less at a time. School authorities may remove a student with a disability from his or her current educational setting for up to 10 school days cumulative in a school year to the extent that such removal would be applied to students without disabilities and for additional short-term suspensions provided no pattern exists.

III. Functional Behavior Assessments and Behavior Intervention Plans

If the school administration, the parent, and the relevant Individualized Education Program (IEP) team members determine that a manifestation exists, the IEP team must:

- conduct a Functional Behavioral Assessment (FBA) and implement a Behavioral Intervention Plan (BIP), if no FBA was conducted previously; or,
- if the student already has a FBA and BIP in place, review and modify the BIP as necessary to address the behavior.

If a manifestation is found, the school division and the parent may agree to a change in placement when reviewing or modifying the BIP. Without this agreement the student must return to the placement from which the student was removed.

IV. Educational Services While Disciplined

For the first 10 days of removal in a school year, the School Board is not required to educational services to the student with a disability if services are not provided to students without disabilities who have been similarly removed.

After the first 10 days of removal in a school year, the School Board shall provide educational services to the student during the period of removal. The services must enable the student to:

- 1) continue to progress in the general curriculum, although in another setting, and
- 2) progress toward meeting the goals set out in the student's IEP.

The determination of educational services is made by the IEP team for discipline which constitutes a change in placement. For discipline which is not a change in placement the determination is made by school personnel in consultation with the student's special education teacher.

V. Manifestation Determination

When a discipline action is proposed that will result in a change of placement a manifestation determination review shall be conducted within 10 school days after the date on which the decision to take disciplinary action is made. This review shall be conducted by the Manifestation Team, which consists of a local educational agency representative, the parent and relevant members of the IEP team (as determined by the parent and the school division).

The Manifestation Team may determine that the behavior of the student was not a manifestation of such child's disability only if the Team:

- 1) considers all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information supplied by the parents; and
- 2) determines that:
 - a) the conduct in question was not caused by, or had a direct and substantial relationship to, the student's disability; and
 - b) the conduct in question was not the direct result of the school division's failure to implement the IEP.

If a manifestation is found, the student cannot be disciplined beyond any permissible short term removal that may be available. A parent may request an expedited due process hearing if the parent disagrees with the determination that the behavior was not a manifestation of the student's disability or if the parent disagrees with any decision regarding the placement of the student while disciplined. The student will remain in the interim alternative education setting pending the decision of the hearing officer or the expiration of a forty-five school day removal.

VI. Disciplinary Action for Behavior that is Determined Not to be a Manifestation

If the behavior is not a manifestation of the student's disability, the disciplinary procedures will be applied in the same manner as applied to nondisabled students. Following a removal which constitutes a change in placement, the student must continue to receive the educational services necessary to enable the student to continue to participate in the general curriculum, although in another setting and to progress toward

meeting the goals set out in the student's IEP. In addition, the special education and disciplinary records of the student must be made available to the person who makes the final decision regarding the discipline.

VII. Disciplinary Action and/or Placement for Behavior that is Determined to be a Manifestation

A student with a disability whose behavior is determined to be a manifestation of his or her disability may be disciplined except to the extent a removal is otherwise permitted by law. The student may also be removed to a more restrictive placement by following change in placement procedures. The IEP team must conduct or review a FBA and/or BIP as provided in Section III.

VIII. Interim Alternative Educational Settings for Weapons and Drugs and Infliction of Serious Bodily Injury

Students with disabilities 1) who carry or possess a weapon to or at school, on school premises or to or at a school function under the jurisdiction of a state or local educational agency; 2) who knowingly possess or use illegal drugs or sell or solicit the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or (3) who inflict serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency may be disciplined pursuant to Policies JFCD, JFCF, or JGDB and may be placed in an interim alternative educational setting for up to forty-five school days. This option is available without regard to whether a manifestation exists. If no manifestation is found, the student may be disciplined to the extent a student without disabilities would be disciplined.

Any interim alternative educational setting shall be selected, by the IEP team, so as to enable the student to continue to progress in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The Imodifications designed to address the behavior so it does not recur.

IX. Change of Placement by Hearing Officer

In addition to the other options for removal, a hearing officer may order a change in the placement for a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or others. Additional forty-five (45) school day removals may be authorized by the hearing officer as necessary.

X. Placement During Appeals

Students with disabilities are entitled to the due process rights available to a nondisabled student. In addition, students with disabilities are entitled to the due process procedures available under the Individuals with Disabilities Education Act, as amended and any state procedures. During the course of any appeals, the student's placement shall be in accordance with the provisions of federal law unless the parent and the school division agree otherwise.

XI. Students Not Identified as Disabled

Students for whom the parents assert there is a disability but who have not yet been identified as disabled may be subjected to the same measures applied to students without disabilities if the school division did not have knowledge of the disability before the behavior that precipitated the disciplinary action occurred. A school division will be found to have knowledge of the student's disability if before the behavior that precipitated the disciplinary action occurred:

- a) the parent expressed concern in writing to supervisory or administrative personnel of the school division, or to a teacher of the student, that the student is in need of special education and related services; or
- b) the parent requested an evaluation of the student for special education eligibility through formal evaluation procedures; or
- c) the student's teacher or other school personnel had expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or to other supervisory personnel of the school division.

A school division would not be found to have knowledge of a student's disability if:

1. the parents refused to allow an evaluation of the student or refused special education services; or
2. the student was evaluated and found not eligible for special education services.

If a request for an evaluation is made during the period such student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the student is found eligible as a child with a disability, taking into consideration information from the evaluation conducted by the school division and information provided by the parents, then the student must be provided special education and related services, although in another setting, in compliance with the procedures for suspended and expelled students with disabilities. Pending the results of the evaluation, the student shall remain in the educational placement determined by the school authorities.

XII. Disciplining Certain Section 504 Students Who Violate Alcohol and Drug Policies

Students who are identified as disabled solely under Section 504 of the Rehabilitation Act, and who are currently engaging in the illegal use of drugs or alcohol, may be disciplined for violating the division's alcohol and drug policies to the same extent as non-disabled students, the student is not entitled to a due process hearing under special education procedures in this circumstance but does retain the protections afforded to regular education students

DISCIPLINE OF STUDENTS WITH DISABILITIES FOR INFLICTION OF SERIOUS
BODILY INJURY

A student with a disability may be removed without parent consent and assigned to an interim alternative education program by school personnel for not more than forty-five (45) school days when the student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency. This option is available regardless of whether a manifestation exists. If no manifestation is found, the student may be disciplined to the extent that a student without disabilities would be disciplined.

In addition, the applicable procedures of Policies JGDA and JGD/JGE will be followed. The term serious bodily injury has the same meaning given the term "serious bodily injury" under paragraph (3) of subsection (h) of section 1365 of title 18 of the United States Code.

STUDENT HEALTH SERVICES AND REQUIREMENTS

The Charles City County School Board may employ school nurses, physicians, physical therapists, occupational therapists and speech therapists who meet such standards as may be determined by the Board of Education. Subject to the approval of the local appropriating body, a local health department may provide personnel for health services for the school division.

With the exception of school administrative personnel and employees who have the specific duty to deliver health-related services, no licensed instructional employee, instructional aide, or clerical employee shall be disciplined, placed on probation, or dismissed on the basis of such employee's refusal to (i) perform nonemergency health-related services for students or (ii) obtain training in the administration of insulin and glucagon. However, instructional aides and clerical employees may not refuse to dispense oral medications.

For the purposes of this policy, "health-related services" means those activities which, when performed in a health care facility, must be delivered by or under the supervision of a licensed or certified professional.

PHYSICAL EXAMINATIONS OF STUDENTS

- A. No pupil shall be admitted for the first time to any public kindergarten or elementary school in Charles City County School Division unless such pupil furnishes, prior to admission,
 - 1. a report from a qualified licensed physician, or a licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope prescribed by the State Health Commissioner performed within the 12 months prior to the date such pupil first enters such public kindergarten or elementary school; or
 - 2. records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.
- B. If the pupil is a homeless child or youth as defined in Va. Code § 22.1-3, and for that reason cannot finish the required report or records, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division shall immediately refer the student to the division's homeless liaison, who will, as soon as practicable, assist in obtaining the necessary physical examination by the local health department or other clinic or physician's office and shall immediately admit the pupil to school.

STUDENT IMMUNIZATIONS

No student shall be admitted by a school unless at the time of admission the student or his parent submits documentary proof of immunization as required by Va. Code §§ 22.1-271.2 and 32.1-46 to the admitting official of the school or unless the student is exempted from immunization as described below or is a homeless child or youth as defined in Va. Code § 22.1 - 3.

If a student does not have documentary proof of immunization, the school will notify the student or his parent

- that it has no documentary proof of immunization for the student;
- that it may not admit the student without proof unless the student is exempted, including any homeless child or youth as defined in Va. Code § 22.1-3;
- that the student may be immunized and receive certification by a licensed physician, physician assistant, nurse practitioner, registered nurse or an employee of a local health department; and
- how to contact the local health department to learn where and when it performs these services.

Any parent, guardian, or other person having control or charge of a child being home instructed or exempted or excused from school attendance shall comply with immunization requirements provided in Va. Code §§ 22.1-271.4 and 32.1-46 in the same manner and to the same extent as if the child has been enrolled in and is attending school.

Conditional Enrollment

Any student whose immunizations are incomplete may be admitted conditionally if he provides documentary proof at the time of enrollment of having received at least one dose of the required immunizations accompanied by a schedule for completion of the required doses within 90 calendar days. If the student requires more than two doses of hepatitis B vaccine, the conditional enrollment period will be 180 calendar days.

The immunization record of each student admitted conditionally will be reviewed periodically until the required immunizations have been received.

Any student admitted conditionally who fails to comply with his schedule for completion of the required immunizations will be excluded from school until his immunizations are resumed.

Exemptions

No certificate of immunization is required for the admission to school of any student if

- the student or his parent submits an affidavit to the admitting official stating that the administration of immunizing agents conflicts with the student's religious tenets or practices; or
- the school has written certification from a licensed physician, physician assistant, nurse practitioner, or local health department that one or more of the required immunizations may be detrimental to the student's health, indicating the specific nature and probable duration of the medical condition or circumstance that contraindicates immunization.

Homeless Pupils

If a student is a homeless child or youth as defined in Va. Code § 22.1-3 and

- does not have documentary proof of necessary immunizations or has incomplete immunizations and
- is not exempted from immunization,

the school division will immediately admit such student and will immediately refer the student to the local school division homeless liaison who will assist in obtaining the documentary proof of, or completing, immunization.

Immunization Record

Every school records each student's immunizations on the school immunization record. The school immunization record is a standardized form provided by the State Department of Health, which will be a part of the mandatory permanent student record. Such record is open to inspection by officials of the State Department of Health and the local health departments.

The school immunization record will be transferred by the school whenever the school transfers any student's permanent academic or scholastic records.

Within 30 calendar days, after the beginning of each school year or entrance of a student, each admitting official will file a report with the local health department. The report will be filed on forms prepared by the State Department of Health and will state the number of students admitted to school with documentary proof of immunization, the number of students who have been admitted with a medical or religious exemption and the number of students who have been conditionally admitted, including those students who are homeless children or youths as defined in Va. Code § 22.1-3.

COMMUNICABLE DISEASES

The Charles City County School Board recognizes the importance of protecting its students and employees from the transmission to their health and safety while also protecting the legitimate interests and rights of students and employees with communicable diseases. In carrying out this responsibility, the Board directs the superintendent to act in compliance with applicable law to exclude from school attendance or work in the school setting any person who has a communicable disease. Both the decision to remove the student or employee and the decision to readmit the student or to permit the employee to return to work shall be made by the superintendent based upon consultation with the local health department, the student's or employee's physician, physician assistant, nurse practitioner, and/or medical authorities (See policy JHCCA).

The identity of a student who has a communicable disease will be kept confidential and will be revealed only in accordance with state law. An alternative educational program should be made available to any student whose removal pursuant to this policy is expected to result in a prolonged absence from school or where otherwise required by law.

Administrative procedures concerning the exclusion of employees and students with communicable diseases will be consistent with the requirements of law, including the policies of the Virginia Department of Education, and should reflect current medical knowledge and research.

BLOOD BORNE CONTAGIOUS OR INFECTIOUS DISEASES

The attendance at school of students who suffer from blood borne diseases, which are infectious or contagious, such as AIDS and Hepatitis B, and which may be transmitted by the exchange of body secretions, shall be determined by the superintendent on a case-by-case basis. The superintendent shall obtain the advice of the local department of health to assist him/her in making his/her determination. The student may be excluded from school and school-related functions pending the superintendent's decision. The superintendent shall issue regulations setting forth the procedures to be followed to effectuate this policy.

An alternative educational program shall be made available to any student whose removal pursuant to this policy is expected to result in a prolonged absence from school or where otherwise required by law.

Training in the use of universal precautions for handling blood shall be conducted periodically in accordance with state and federal law. Universal precautions for handling blood shall be implemented within the school setting and on buses in accordance with state and federal law and guidelines.

The School Board shall adopt guidelines for school attendance for children with human immunodeficiency virus. Such guidelines shall be consistent with the model guidelines for such school attendance developed by the Board of Education.

GUIDELINES FOR SCHOOL ATTENDANCE FOR STUDENTS WITH HUMAN IMMUNODEFICIENCY VIRUS

The Charles City Comity School Board recognizes its dual obligations to protect the rights of individual students infected with human immunodeficiency virus (HIV) and to provide a safe environment for students, staff, and the public. Because HIV is not transmitted through casual contact, any student who is HIV-infected will continue in a regular classroom assignment unless the student's health significantly interferes with his or her ability to benefit from the educational program.

The Charles City County Public Schools will work cooperatively with the local health department with regard to the school attendance of students infected with HIV. To enhance the school attendee of students who are HIV-infected, the school division will collaborate with public and private organizations in the provision of support services to HIV-infected students. All students are expected to satisfy the immunization requirements of Virginia Code § 22.1-271.2 unless a required immunization would be harmful to the health of the student. Students who are HIV-infected or have acquired immune deficiency syndrome (AIDS) may be exempted from obtaining immunizations which would otherwise be required. School personnel will cooperate with public health personnel regarding exemptions from the requirements.

Mandatory screening for HIV infection is not warranted as a condition of school attendee. Upon learning that a student is HIV-infected or has AIDS, the division superintendent may consult with the student's family, the student's family physician, or an official from the local department of health to determine whether the student is well enough to stay in school. If a change in the student's program is necessary because of the student's health, the division superintendent or designee will work with the student's family, family physician or local health official to develop an educational plan for the student.

Any school board employee or volunteer who has any information regarding a student's HIV-infected status will treat that information as confidential. Division personnel will share information regarding a student's HIV status only with the written consent of the student's parent or guardian.

Despite the extremely remote risk that exposure of skin to blood could result in infection, the following universal precautions for handling blood will be implemented within schools and on school buses:

- persons involved in cleaning surfaces exposed to blood and persons rendering first aid to bleeding students should wear disposable gloves to avoid exposure of open skin lesions and mucous membranes to blood;
- surfaces contaminated with blood should be promptly cleaned with household bleach (1 part bleach to 9 parts water) using disposable towels and tissues;
- hands must be washed after gloves are removed;
- if one person's skin is exposed to the blood of another person, the exposed areas should be washed with soap and water.

Universal precautions do not apply to feces, nasal secretions, saliva, sputum, sweat, tears, urine, and vomit unless they contain blood.

To ensure implementation of the proper procedures for all body fluids, training will be provided to all school personnel. Training will include information regarding the following: etiology, transmission, prevention, and risk reduction of HIV; standard procedures for handling blood and body fluids; community resources available for information and referral; and local division policies.

Comprehensive and age-appropriate instruction on the principal modes by which HIV is spread and the best methods for the reduction and prevention of AIDS will be provided.

STUDENT WELLNESS

I. Policy Statement

The Charles City County School Board recognizes the link between student health and learning and desires to provide a comprehensive program promoting healthy eating and physical activity in division students.

II. Goals

The Charles City County School Board has established the following goals to promote student wellness.

A. Nutrition Promotion and Education

Teachers will use a variety of nutrition education materials to teach the students the skills they need to adopt in order that they maintain healthy eating habits.

Nutrition education is offered in the school cafeteria as well as in the classroom, with coordination between the foodservice staff and other school personnel, including teachers via curriculum materials, i.e., videos, video streaming, power point presentations, bulletin boards, displays and posters.

Students receive consistent nutrition messages from all aspects of the school program via the curriculum and all adults with whom the students come in contact.

Division health education curriculum standards and guidelines address both nutrition and physical education.

Nutrition is integrated into the health education or core curricula (e.g., math, science, language arts) in an effort to send students a uniform messages relative to developing healthy life styles..

Schools link nutrition education activities with the coordinated school health program, the Charles City Health Department program, and the Charles City 4H Department Nutrition program.

Staff who provide nutrition education have appropriate training and will continue to receive training to keep abreast of best practices in the field of nutrition education.

The level of student participation in the school breakfast and school lunch programs will increase as a result of students' involvement in menu planning and increased knowledge of developing a healthy life style by way of the core nutrition education program.

B. Physical Activity

The Charles City County school division has a goal of making a program of physical fitness available to all students for at least 150 minutes per week on average during the regular school year. Such program may include any combination of physical education classes, extracurricular activities, and other programs and physical activities.

The division's goal for the implementation of its physical fitness program as follows:

- Students are given opportunities for physical activity during the school day through physical education (PE) classes, daily recess periods for elementary school students, and the integration of physical activity into the academic curriculum where appropriate.
- Students are given opportunities for physical activity through a range of before and/or after-school programs including, but not limited to, intramurals, interscholastic athletics, and physical activity clubs.
- Schools work with the community to create ways for students to walk, bike, rollerblade or skateboard safely to and from school.
- Schools encourage parents and guardians to support their children's participation in physical activity, to be physically active role models, and to include physical activity in family events.

Schools provide training to enable staff to promote enjoyable, lifelong physical activity among students.

C. Other school-based activities

An adequate amount of time is allowed for students to eat meals in adequate lunchroom facilities.

All children who participate in subsidized food programs are able to obtain food in a non-stigmatizing manner.

The availability of subsidized food programs is adequately publicized in ways designed to reach families eligible to participate in the programs.

Environmentally-friendly practices such as the use of locally grown and seasonal foods, school gardens, and non-disposable tableware have been considered and implemented where appropriate.

Physical activities and/or nutrition services or programs designed to benefit staff health have been considered and, to the extent practical, implemented.

D. Nutrition Guidelines

Generally

Nutrition guidelines have been adopted by the division for all foods available on every school campus during the school day. The objectives of the guidelines are to promote student health and learning and reduce childhood obesity.

Nutritional standards for the school breakfast and school lunch programs that meet or exceed state and federal standards are in place.

The nutritional content of foods and beverages donated for class parties or other school events is considered.

School-based marketing of foods and beverages, such as through advertisements in school publications, school buildings, athletic fields, and/or other areas accessible to students, and activities such as incentive programs, will include only those items that meet the nutrition standards approved by the School Board..

Outreach strategies to encourage families to reinforce and support healthy eating and physical activity will be disseminated throughout the school district.

III. Implementation

The School Board encourages parents, students, representatives of the school food authority, teachers of physical education, school health professionals, school administrators, and the general public to participate in the development, implementation, and periodic review and update of this policy.

The Director of Health Services will be responsible for overseeing the implementation of this policy and will develop procedures for evaluating the policy, including indicators that will be used to measure its success. The public, including parents, students, and others in the community, will be informed and updated about the content of implementation of the policy. Implementation procedures will include periodically measuring and making available to the public an assessment on the implementation of the policy, including the extent to which schools are in compliance with the policy, the extent to which this policy compares to model school wellness policies, and a description of the progress made in attaining the goals of the policy.

RESTRAINT AND SECLUSION OF STUDENTS

Physical and mechanical restraint and seclusion may only be used consistent with this policy.

As used in this policy,

“physical restraint” means the use of physical force to restrict the free movement of all or a part of a student’s body. Excluded from this definition is the use of procedures the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“mechanical restraint” means the use of any device or material attached to a student’s body that restricts freedom of movement or normal access to any portion of the student’s body and that the student cannot easily remove. Excluded from this definition is the use of devices or materials the use of which is documented in the student’s Individualized Education Plan (IEP), Section 504 plan, or behavior intervention plan;

“seclusion” means the confinement of a student alone in a separate enclosed space, in a manner that prevents the student from leaving. Seclusion is permitted in accordance with a student’s IEP, Section 504, or behavior intervention plan, or to prevent injury to the student or others. When a student is placed in seclusion, he or she will be monitored by a staff member in close proximity. It is preferable that the staff member can see or observe student. A student placed in seclusion will be released from seclusion upon cessation of the behaviors that led to the seclusion; after a reasonable period of time in the seclusion setting during which it is determined that the seclusion will not be effective; or in accordance with the student’s IEP, Section 504 plan, or behavior intervention plan. The space used for seclusion must be appropriately lighted, ventilated, and heated or cooled, and free from objects that unreasonably expose the student or others to harm.

Physical restraint, mechanical restraint, and seclusion may only be used by a staff member who has been trained in the proper use of the technique applied or device utilized and should only be used in the following circumstances:

- as needed to protect an individual from his or her own actions;
- as needed to protect others from injury by the restrained person;
- as needed to quell a disturbance;
- as needed to gain possession of weapons or other dangerous objects on the person or within the control of a student;
- as needed for self-defense;
- as needed to escort a student safely from one area to another;
- as reasonably needed to prevent imminent destruction to school or another person’s property;
- when using seat belts or other safety restraints to secure a student during transportation;
- to direct the movement or actions of a student to avoid the undue or deliberate disruption of the learning environment;
- as authorized by the Code of Virginia, or
- as authorized by a student’s IEP, Section 504 plan or behavior intervention plan

Nothing in this policy is intended to limit the application of Va. Code § 22.1-279.1 which provides generally that:

No teacher, principal or other person employed by the school board shall subject a student to corporal punishment. This prohibition of corporal punishment shall not be deemed to prevent

- the use of incidental, minor or reasonable physical contact or other actions designed to maintain order and control;
- the use of reasonable and necessary force to quell a disturbance or remove a student from the scene of a disturbance which threatens physical injury to persons or damage to property;
- the use of reasonable and necessary force to prevent a student from inflicting physical harm on himself;
- the use of reasonable and necessary force for self-defense or the defense of others;
- the use of reasonable and necessary force to obtain possession of weapons or other dangerous objects or controlled substances or paraphernalia which are in the possession of the student or within his control;
- physical pain, injury or discomfort caused by participation in practice or competition in an interscholastic sport; or
- participation in physical education or an extracurricular activity.

Documentation and Notice to Parents

A parent or guardian will be notified in writing within a reasonable period of time, not to exceed 15 school days, after any use of

- physical restraint; or
- seclusion resulting in observed physical injury to the student.

The staff member who utilizes restraint or seclusion will be responsible for making a record of information regarding its use including the date, time, duration, precipitating behavior, outcome and other pertinent observations. Documentation is not required when using mechanical devices that are authorized and utilized for the student's safety or physical support such as bus harnesses, lap belts, rifton chairs and similar devices. This policy does not permit the use of a restraining device to limit a student's mobility when that device is not ordinarily used with the student.

Policy Statement

Electronic or digital signatures can take many forms and can be created using many different types of technology. The authenticity and reliability of electronic signatures relating to transactions are dependent on the accompanying processes, supplemental records and the overall context in which records are created, transferred, and signed. The Charles City County School Board adopts the following policy with respect to the use of electronic records and signatures in connection with its communications with parents, guardians, or other persons having control over a child enrolled in this division.

Definitions

"Attribution" - An electronic record or electronic signature is attributable to a person if it was the act of the person. The act of the person may be shown in any manner, including a showing of the efficacy of any security procedure applied to determine the person to which the electronic record or electronic signature was attributable.

"Electronic Signature"- An electronic sound, symbol or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

"Electronic Record" - any record created, generated, sent, communicated, received or stored by electronic means.

Electronic Records

Electronic records created or received by the division shall be appropriately attributed to the individual(s) responsible for their creation and/or authorization or approval. The division shall

utilize available technology to implement reliable methods for generating and managing electronic records. Any electronic record filed with or issued by the division may be given full force and effect of a paper communication if the following conditions are satisfied:

The issuance and/or acceptance of an electronic signature by the School Board may be permitted in accordance with the provisions of this policy and all applicable state and federal law. If permitted, such electronic signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:
